Nancy Birindelli Retires

by Scott Sager, GMAA President

One of the true inspirations and driving forces behind the George Mason Alumni Association retired at the end of 2003. Nancy Birindelli has been the primary liaison person between the GMAA and the City of Falls Church School System since the very beginning of the GMAA in 1988. In fact, Nancy is credited with initiating the idea of an alumni association prior to the 40th Anniversary celebration of the City of Falls Church Public Schools in 1989. For the past 15 years, Nancy has worked hand and glove with the GMAA and almost single-handedly ensured that the GMAA received the necessary funding each year from the City to keep the GMAA alive and functioning. The vast majority of these funds went into producing and mailing the *Mustang Review* on a twice yearly basis – not a trivial cost and absolutely necessary to maintain a current mailing database and, therefore, an active Alumni Association that does not rely on dues or subscription charges to survive financially.

Nancy began her career in Falls Church City Public Schools when she was hired to teach fourth grade at Mt. Daniel School in 1967. After leaving Mt. Daniel, she

served as a Career Education Specialist, Community Education Coordinator, Public Relations Coordinator, and finally, in 1992, the school system's first Personnel Director. As Personnel Director, Nancy implemented expanded recruit-

ing activities including job fairs, college visits, website applications, and expanded advertising. Nancy has been praised for her efforts in recruiting quality teachers, conducting in depth salary studies, revising personnel policies, and for her and her husband's community involvement throughout their 22 years in the City of Falls Church. Nancy and her husband Ben will be relocating to Duck, N.C. to enjoy retirement living, Outer Banks style.

On behalf of the GMAA, I would like to offer our sincere thanks and gratitude to Nancy for her exceptional vision and unparalleled support of George Mason's alumni over the years. Without her, there would be no GMAA.

All-Class Reunion Weekend June 25-27, 2004

Planning continues on the All-Class Reunion activities for the weekend of 25-27 June 2004. A number of classes are planning to hold their five-year cycle reunions during this weekend and we are expecting a very large turnout, especially for the Friday night Open House at the school. As we had at the first All-Class Reunion in June 1999, we have the entire school reserved for our Open House and we encourage you to join us that night for a chance to visit the school and to see a number of friends, classmates, and teachers. The format will be very similar to the June 1999 event at the school – look for details in the next *Mustang Review* that will be mailed in late May. Also, we have reserved Cherry Hill Park for that Sunday to give alumni and their families a chance to visit and renew friendships.

Second GMAA Directory Completed

The second George Mason Alumni Directory has been completed and will be mailed out during February. This was another successful endeavor with excellent participation from a large number of our alumni. And, for the first time, retired George Mason teachers and administrators will also be included in this edition of the Directory. My thanks to the Harris Publishing Company for their superb cooperation and help in pulling together the directory.

George Mason High School Campus to Expand With a New Building for Grades 5-7

In the November 2003 elections, the electorate of the City of Falls Church overwhelmingly approved a \$25 million bond referendum to build a new school for 600

students in grades 5-7, and to add classrooms and make traffic flow improvements at Mt. Daniel. The new school will be constructed on the current George Mason High School campus, in the area of the existing tennis courts and is projected for completion by September 2005. The new school will include 10 classrooms for each grade level (30 total), a "cafetorium" which serves as a cafeteria and performance space, and a 1,000 seat gymnasium for shared use by the high school, extra-curricular sports, and the City's Recreation and Parks Department's sports programs. The addition at Mt. Daniel will include four additional classrooms, ex-

panded parking and safer traffic flow. The redistribution of grades will also provide additional space for the remaining students at GMHS and Thomas Jefferson Elementary.

This new school project was required by the fact that Falls Church's school population has grown over the last 10 years by roughly 50 percent — which is faster than several surrounding school systems. In order to meet space needs for the 2003-2004 school year, eight additional trailers were added to the 13 already located next to school buildings; together they house over 350 students or about 20 percent of the total school system enrollment.

Paul Ebert '55 Successfully Prosecutes Sniper

Congratulations to Paul Ebert, Class of 1955 for his successful prosecution of John Allen

Muhammad, 43, in the sniper death of Dean Harold Meyers, 53, at a Manassas gas station. A Virginia Beach jury recommended in November 2003 that Muhammad be put to death for the October 9, 2002 shooting. Both John Allen Muhammad and Lee Boyd Malvo will receive formal sentences in Northern Virginia on March 10, 2004. This event is largely a formality -- Judges are not allowed to change a sentence from life in prison to death, and rarely ever reduce death sentences to life in prison.

Superintendent of Schools Announces Retirement

Superintendent Mary Ellen Shaw has announced plans to retire in June 2004. In a letter to the School Board Shaw wrote, "...hav-

ing turned the corner with the very positive vote on the referendum, it is time for a new superintendent to lead the system through the next series of important decisions and the anticipated continuing growth in enrollment." Superintendent Shaw's retirement plans include an offer to be available to help the new superin-

tendent and administrative staff through the new school's construction process, spending time with family, as well as pursuing personal interests and continued education.

Superintendent Shaw began her career with Falls Church City Public Scholls (FCCPS) 34 years ago as a 1st grade teacher at Mt. Daniel Elementary. In 1977 she became principal of Mt. Daniel Elementary and Elementary Supervisor. During this tenure, both Thomas Jefferson and Mt. Daniel Elementary schools were recognized for excellence in education by the U.S. Department of Education. In 1989 she received the *Washington Post* Distinguished

Educational Leadership Award, followed by an appointment to Director of Instruction and Assistant to the Superintendent in 1990. She served as an interim middle school principal in 1992, and interim superintendent in 1995 and 1997. During her second service as interim superintendent, in 1997, Ms. Shaw was appointed Superintendent of FCCPS. During this notable career she has watched FCCPS student enrollment grow over 50%, weathered decreasing state funding and tight budgets, overseen the renovation of Mt. Daniel as a principal, the renovation of George

Administrator Nancy Sprague

by Michael Hoover, GM Teacher

You never have heard and you never will hear anything negative about Nancy Sprague. You never even heard of anyone second-guessing her. How rare is that in high-powered educational circles? It's a tribute to Dr. Nancy Sprague that, considering the huge number of students, parents and fellow educators she worked with on sometimes very controversial issues, her integrity was so solid that even those who might disagree with her respected her unquestioningly.

Nancy, the Chief Academic Officer for the Fairfax County Public Schools, died unexpectedly in her sleep recently. Her boss, Fairfax Superintendent Daniel Domenech, called her his "right hand." Isis Castro, chairman of the Fairfax County School Board, called Nancy the "Bionic Woman," in reference to her extraordinary work ethic and capacity for taking on large projects and completing them successfully.

While Nancy spent the last 13 years of her prestigious career in Fairfax County, which has one of the nation's largest school divisions, it was right here in little Falls Church that she laid the groundwork

for her phenomenal success.

Nancy arrived in Falls Church as a member of the 1970 freshman class of teachers. It was a large, energetic group that I was proud to be a member of. That class included current Falls Church superintendent Mary Ellen Shaw, who came aboard as an elementary teacher. We (over 20 of us!) were referred to as "the rookies" and, funny as it seems now, 34 years later, we were considered "the youth movement" that would breathe new life into the schools. Very much because Nancy led the way, we did.

At first, Nancy was a high school social studies teacher. While we were both technically rookies, the difference between us was so enormous, I recognized it immediately. First of all, she had the heft of that PhD from Michigan under her belt and a quiet confidence that I immediately admired. I hung around her classes just to learn how to teach. We became fast friends and I learned much from her, especially that it was worth taking risks in the classroom. Nancy Sprague was the walking embodiment of a new and exciting pedagogy that I aspired to;

it combined the best of the traditional and the experimental. I also found out that she and her wonderful husband Stephen were phenomenal poker players, but that's a story for another time.

Most of all Nancy reinforced in all of her fellow teachers the idea that every single student had an intrinsic value and that our job was to prop up that value, no matter how damaged it may be, and instill in that child a sense of worth. That was the essence of education according to the Sprague philosophy. It's the best lesson that this once-young teacher ever learned.

It soon became apparent to everyone that Nancy's intellect, grasp of educational principles, and exceptional organizational skills were needed in larger forums and she was repeatedly tapped for other assignments. She became assistant high school principal, middle school principal, K-12 director of instruc-

Continued on page 4

Superintendent Retiring continued from page 2

Mason MS/HS as Assistant to the Superintendent, and embarked on an innovative public/private partnership for the construction of the new 5-7 Middle School as Superintendent, while continuing to sustain the excellence of the Falls Church City's schools as a premier small public school system. In addition, Superintendent Shaw has earned the respect and admiration of the School Board members, teachers, support staff and students.

The GMAA would also like to thank Mary Ellen for her very positive support of, and frequent participation in, the alumni association.

Chairman Ruth Brock stated, "The Board is meeting with a consultant who could help us spread the widest possible recruitment net, and assist us with other specific services. However, the Board feels strongly that this is our job and we will not be turning the project largely over to a search firm."

The School Board will hold community and staff meetings to

learn what staff members and Falls Church citizens view as the desired characteristics of a superintendent and to hear what they feel are the challenges facing the division in the next few years. Also, at the beginning of each regular School Board meeting there will be opportunities for citizens to share their ideas and observations. Community members and school staff may also provide comments to the School Board in writing or to post them on the FCCPS website's *Community Comments* section: www.fccps.k12.va.us.

Nancy Sprague, continued from page 3

tion, assistant to the superintendent, and clerk of the school board.

But Nancy didn't care about titles. She was the ultimate doer. She simply liked to get things done well. She had an abiding faith in the democratic concept of public schools and was committed to making that concept a reality for *all*. She was particularly concerned about students who were on the edge, who were not as enfranchised as others. She believed that school systems should deliver educational justice for everyone. She once told me that her job was to see that this justice was delivered equitably.

I believe that is why Nancy chose to work in Fairfax County even though she potentially had an exceptionally bright future assured for her in Falls Church. Once, when I asked her about her decision to move to Fairfax County back in the early 90s, she said that several factors had influenced her decision. One was that she knew Falls Church would be in good hands. Another was that she relished the idea of seeing if she could make a

difference on a larger stage. Mentally she surveyed the tens of thousands of students and the thousands of teachers in Fairfax County and said, "I want to see if I can make a real difference for so many."

Superintendent Domenech called Nancy a "visionary" and that she was. She could see the big picture clearly when the rest of us were still trying to get it into focus. Everyone who knew her can attest to Nancy's phenomenal intellect, one so tangible that it seemed like it was sitting in the chair next to her.

In spite of Nancy's incredibly demanding career, she always had

time and devotion for her family, friends and community. She was very active in her church, Dulin United Methodist, and took time for everyone. We all suffered with her and Stephen when they lost their precious daughter Beth three years ago. Shortly after that, Nancy encountered serious health problems and so did Stephen. Yet, in spite of her pain, she seemed unfazed by life's adversities. When I asked her how she did it, she said, "Michael, there is no alternative but to carry on." And so we shall, without her, but also because of her.

Lights For GM's Football Field

by Scott Sager, GMAA President

After more than 50 years of trying, it now appears that lights, yes lights, will finally be built at the Mustangs Football field! An aggressive campaign to raise money to light the George Mason High School athletic field scored a major breakthrough because of GM alumni, Jacques Joseph (Joey) Moore III '99, who starred in football and baseball at GMHS. Joey has used his new position as

vice president at Moore Cadillac in Tysons Corner to negotiate a deal with the George Mason Boosters Club that gives the car dealership "naming rights" to the football field at GM in exchange for a major donation that, effectively, puts the fundraising effort "over the top." According to the *Falls Church News-Press*, Moore, who received his bachelor's degree from The Citadel before joining his grandfather's auto business and rising rapidly to the position of vice-president, said that he was grateful for the role that athletics played for him at George Mason and that they

were an important part of maintaining his interest in school.

In exchange for the Moore Cadillac contribution (\$50,000 according to the *Washington Post*), the football field at GM will be officially known as Moore Cadillac Stadium for five years and will be part of the overall Jack Gambill Athletic Fields.

Also, according to the *Post*, the selling of naming rights to high school stadiums is rare, and several athletic directors from around the area indicated that they wished they could strike similar deals for their athletic facilities.

Class Notes

Classes of 1953 & 1954

By Patti Regan Carson
& Lynn Llewellyn

The intrepid members of the 1953-'54-'55 Reunion Committee have met several times in recent months to discuss plans for the upcoming three-class 50th reunion to be held Friday-Sunday, June 25-27, 2004. As we have explained previously, this weekend will coincide with George Mason's all-class reunion scheduled for that Friday night. Our reunion headquarters will be the Doubletree Hotel Tyson's Corner, 7801 Leesburg Pike, Falls Church, telephone 703-893-1340. This is the same hotel that the classes of '53-'54 have used for several previous reunions and it is conveniently located near George Mason, Tyson's Corner Center, and the beltway. A few members of the committee recently met with members of the Doubletree staff. We have arranged to have a special Hospitality Room as a class-gathering place for most of the weekend and dinner at the hotel on Saturday night. Details, including costs, will be mailed to you soon after the first of the year (once we have finished the Christmas/New Year revelries — it takes a while). We hope that one of your major New Year's resolutions will be to make your travel plans for the reunion ASAP.

You should have your 2004

calendar by now. Please note the reunion dates (June 25-27) as you are reading this. Thanks.

Lynn Llewellyn, the 1953 Class Rep., sends his regards. He ran out of time to write one of his always amusing and insightful articles for this issue.

Class of 1955

By Maggie Koontz Stewart
& Judy Potter Brown

We were delighted to hear from Lydia Munson Giancotti recently: "After George Mason, I continued my cheerleading at Maryville College and later transferred to Ohio University. After college I got married, had two daughters and played on a city tennis team. My husband and I joined the School Board of Broward County, FL, in the early 1970's where we stayed until our retirement in 1995. We've traveled to Singapore, Breckenridge and Bermuda and still own property in the Outer Banks. "I am so proud of my Falls Church heritage and honor my ancestors by learning more about their families and spending every waking moment in a genealogy library. I love life, nature walks, jigsaw puzzles, *NY Times* obits, concerts at the college and nurturing our four grandchildren. In our fast paced lives, we only have time for bite-sized portions of philosophy. But, please remember, 'We cannot direct the wind, but we can adjust the sails.' Today, I have the most cursory knowledge of my kitchen but rather enjoy the restaurant scene. Age is only candles on the cake, so why not enjoy the pleasures and joys of life? Our class of '55 had such

great school spirit, but who was that scoundrel social studies teacher who made us write good and bad things about each other? I'll always remember my special friends, the Yogs and the Yog mother, Mrs. Havens, serving hot apples and sausage. **Dick Fisher**, you were so smart. **Gail Hodges** and **Dave Harrison** had it all. Friendships with **Beverly Eubank** and **Don Jones** began at Madison Elementary. The class of '55 also had a special blend of energy, enthusiasm and loyalty. Our teachers inspired all of us and nourished our souls. Knowing all of you has surely enriched my life."

And here's the latest report from the reunion committee: Gail and Maggie have been up-dating our class list. It is presently on its 4th printing and should be finalized by the all-class reunion June 25-27 for those that attend. So far 10 alums are still unaccounted for—**Connie Archer, Ginger Atkins, Nancy Boone, Karen Brock, Nancy Dressor, Carole Ferguson, Henrietta Green, Jerry Novak, Elinor Rote, and Roberta Rucker**. Write any of us if you have any information. We have five classmates getting in touch with some classmates on the already known list—**Mag, Bob Koontz, Don Jones, Gail and Judy**. Sometime in 2004 one or another of us will call or write to see if you plan on attending the reunion. Gail and Maggie are very pleased with the response so far and think, after reading Lydia's note, we may remember all the good '55 times. Meanwhile Maggie is moving again—to a SFH with fewer stairs

(Class of '55 continued)

—no knickknacks now with all these moves but too much art, if that is possible.

Class of 1958

By Tiana Camfiord

Hi all - By now you should know we are having our 46th reunion with the All Class Reunion June 25-27. We will join the class of '59 for Saturday evening dinner. Other events are still in the planning stage as of this writing, 12/15/03. If anyone from another class in the 50's—who is NOT having a reunion—wishes to join us, please feel free to contact me.

So much has been going on it seems. **JANET REES WATSON** and Hunter hosted a party over Memorial Day for many of the locals and graciously did it again when **JIM BYRNE** biked in town. Janet's old bike was hauled out for pictures, and Jim shared his cross country adventures. Jim did make it to the Atlantic the following week after waiting three hours under the sign at the Bay Bridge that read "No Bikers." He finally jumped up and down and a trucker got him on his way to Cape Henlopen. He flew home and in conclusion wrote: "Salt Lake City-Cape Henlopen, 2,810 mi.; Bike-Lemond Alpe D'Huez; Lbs. lost - 10; Body parts lost - 0; Body parts damaged TBD; Analysis for future reference - There's no place like home. Rides like this are the closest thing that a male can get to childbirth in that you have to forget the pain before you

can ever do it again." His arrival was just in time to say goodbye to **JERRY and Maureen KUNZ**. "Mo resigned from the State Department for reasons of conscience" and they returned to their home in Tacoma, WA. August 1st. They drove out in a sedan with two dogs and a loud cat (in a soft carrier) all platformed in the back seat. "Wish us luck during our peregrination...you've heard of the Donner Party..." Mo had a great job with Habitat for Humanity awaiting her and, for the moment, Jerry is tackling a long "fix it" list. No sooner got there and had five inches of rain - two more than we ever got here this summer! Most of Mo's family is that area, so it really was "going home." Speaking of Habitat for Humanity, **DAVID BENN** (in semi-retirement) wrote that he is on their Board - on the community side and is also Chairman of the Fulbright Committee. He and Carolyn will continue to live part time in Australia and their new home in Wintergreen, Virginia. They found ALL the leaks during their June visit but had no damage from Hurricane Isabel even though they are in the Official 90mph Zone (six x yr. min.). I just had a lovely long talk with **PEGGY LUNSON STARR** who had no damage, but Callao (also on the Northern Neck of Va.) had serious wreckage. **BILL ANDERSON's** home had severe structural damage, but fortunately he and son are still in the construction business. **PEGGY** still loves her life at the farm and their big old house which can hold their combined 11 children and grandchildren. Lowell did cut back on the acres of wheat and barley this year

but I forgot to ask her if he had a "water spout" behind the mower as **DAN RUNYAN** experienced this year on his three acres Our "Get Togethers" are often on short notice when classmates find themselves coming through the area. But **GARY CROWTHER's** was planned in August to be at **MARY JEAN SANDFORD CAMPBELL's** home, but ended up here. Remember the only 10 days it did not rain? Jean, an avid gardener too, decided to water and had a falling out with the sprinkler, fell and broke her left foot in three places! So we partied with one person arriving "tusch first" up the deck stairs, and sense of humor intact. She could drive after the first 10 days or so, but it took three months for one of the breaks to mend. Anyway, **JEAN ANN ALBRIGHT KIRBY** and **FRED** insisted on bringing a wonderful summer meal with them from the Eastern Shore. Joining us were the **RUNYONS, HEDITNIEMIS, JANE ST. JOHN, THE VANDIVERES** and brother, **LEN V. JANET AND HUNTER** came the day before in a terrible traffic day and could not make it on the right day, and **NASH GIFFORD AND JEAN YATES** whom we had seen at Janet's in May were away. Gary brought a galley of his book which starts with a wild caper. Fun stories with Moe over their Dairy Queen days; Dan's quips. Gary is torn between leaving Florida for a farm(ette?) in Alabama where he will be closer to sons, or Italy - old stomping grounds, friends. The **WILSONS** were going to come up, but Betsy (you're not going to believe this)

tripped over the garden hose and landed face first in their driveway. The ER folks asked why she didn't put up her hands to break (bad choice of words) her fall? Well, going down at the speed of light you just don't think of that! Did not break anything but looked like Rocky Raccoon for a couple of weeks. (**ANN ARNOLD's** raccoon story will have to wait till the reunion...she's missed all events as she remains busy with DAR affairs on weekends, but sends her love to all.) Unfortunately, **MARGARET WILSON GRAY's** husband PAUL's ('57) fall was not funny. After getting his broken hip stabilized he had a very hard time with Rx and remaining chemo therapy - was three weeks before coming home in November. You can reach them at: graym1@alltel.net, and they love a good joke! **PATT MANLY BOWER** is also recovering from a bowel resection due to disease and constriction (no cancer!) and five months with bouts of illness. She said Bob and family pulled off a great Thanksgiving dinner, and she expects to be fully recovered by February. Not only did she not need those 8" of innards, but she might be able to have others do this meal from now on! **PEGGY BETTERS CAMPBELL** was in town in October unfortunately due to the passing of her beloved sister NAN ('62) who lived in Arlington. **JACKIE ABRAMSON BENTON** came up and stayed with her for a week, and we found time for lunch here with **JANE ST. JOHN**. Jane has started a new job where she can use her talents with an outreach program through a

funeral home. Jackie and Peggy checked out a new retirement community near Fredericksburg as Peggy is thinking of finally leaving Texas for home grounds. I finally got to meet her wonderful son who has graduated from the University of Texas, is working in San Francisco Bay area and could easily relocate here too! Jackie thinks perhaps her home is too big for one person. "For a good time **CALL ___**" should be changed to **VISIT** Raleigh, stay with Jackie and be feted by the Wilsons, which **LESLIE GILMORE VANDIVERE** and I were able to do late August (Perils of Pauline a/k/a Mary Jean was coming with broken foot when she had a huge water leak due to improper construction the day before.) Betsy designed their beautiful "Southern Living" home on three acres they built a few years ago which was a great respite from the almost 100 degree heat wave that hit that weekend (natch!). We visited Tony Avent's Gardens early in the a.m. and later found out how fast ice cream can melt at Larry's favorite haunt (Goodberry's). I asked Larry what he towed in his big Durango and he replied "the family," so we had plenty of room for antique purchases later in the day. It will have to wait till the reunion to tell the various versions of Jackie's early arising and the alarm system! Fresh strawberries, blueberries, a few flakes of healthy cereal followed by Krispy Kreme "gift" donuts (Larry's 2nd favorite haunt), is the best breakfast when shared with friends in jammies! Shades of our youth! On Sunday Jackie joined us in Halifax for more

"browsing" before heading home. A great mental health break! (there's that word again..) Good News! **MALCOLM CARPENTER's** son has moved to DC (job) so when he gets home leave he can have more time in the Gulch at his Mom's and with us! **RAIFORD PIERCE** has hired an assistant at his Executive Travel business and **PROMISES** he will be seen soon! He, his wife, and Meredith still see to his Mom on Jackson Street. **CHIP CHANDLER** hopes to graduate Law School in May '04 and bar exam is in July. His research paper involves work with advocates for kids in the juvenile corrections system in New Mexico and he finds time for volunteer work in a drop-in center for homeless kids in Albuquerque. He hopes to work in the public defenders office, or, failing that will try a solo practice and do some poverty law (the qualifier describes both the client and the lawyer!). Had a long chat with **JACK HORKAN (FL)** last month. He's fine, has found some younger friends, helps with the homeless, remodeled his kitchen, and did not take it well when the doctor said his power walking five miles a day may be coming to an end (knees). Loves the new Barnes and Noble (coffee and books), but he cautions us that if you find a retirement community that promotes Bingo and Shuffleboard keep on looking! Also spoke with **JIM RICKETTS** and explained that our tentative plans for a 45th Reunion in his area fell apart when the "Sniper Trials" were moved down there. He sends his best to all. He and Joan have finished remodeling their home as

(Class of '58 continued)

they are guardians for their two grandchildren. Since the kids tie up the computer at home it's best to e-mail or call the office! **SUZANNE COOK CLEMENTS** and Richard breezed in from a week of looking at homes in old stomping grounds of Connecticut. They have to get out of the torrid Del Ray Florida area (and since bought on Amelia Island 30 miles from Jacksonville, Florida). I had put out pictures from our gatherings and she glanced down and said: "Who are all those old people?" Oh, please!

Class of 1959

By Clare Neuberg Dix

The first meeting for our 45th Reunion took place November 13th. 10% of our class was there...plus one older person from the class of 1958. Meetings will probably be monthly. I serve dinner at 6:30 sharp, we are down to business by 7:30. There is a lot involved in putting a reunion together. Your help and input are needed and appreciated. Plan to attend...just let me know. The weekend of June 25th will be full of activities for our class. We plan to see that you are busy Friday through Sunday.....Clare

From **HOWARD GEBEAUX**: Hurricane Isabel is still a lingering storm down here on the Northern Neck of Virginia. Although it roared through quickly, it left a path of devastation that will take a long time to get over. I live right next to Westmoreland State Park, which has remained closed because of the tremendous loss of trees and

damage to piers and buildings. On my other side, George Washington's Birthplace National Monument lost an estimated 300 trees and stayed closed for more than a month after the storm. A bit further down the road, Caledon Natural Area - well known as an eagle habitat - will be closed for an unknown amount of time as they try to clear trees and damaged buildings, without disturbing the eagles. The storm cut power off here for two weeks! Luckily no trees hit my cabin, but one did land on my brother's house up the hill. It's amazing what nature can do. It left me feeling the insignificance of our human strivings. The morning after the storm, while all of us struggled to cope with the fallen trees and lack of power, I noticed that the river had returned to its calm, the birds continued as normal to fly about singing, and the wind was just a light breeze. Isabel had left nature basically unperturbed with the rearrangement of its furniture, while man ran about in panic at the loss of his toys.

From **JOHN DILLON**: Most of the activity has centered on John's company, Auxilium Pharmaceuticals, Inc. The company's first product, Testim, to treat low libido in men, was launched in March. A national sales meeting was held in Orlando in February. The trip gave John and Gail a chance to drive to Vero Beach to see ailing John's father who turned 91 years old in July.

Following the launch of Testim, John was promoted to Executive Vice President in charge of corpo-

rate development. This activity focuses on finding additional new products, being the company's primary dealmaker, and finding markets outside the U.S. in which to market Testim. This focus gave John the chance to make several trips - including a first time trip to Scotland and Dresden in the former East Germany.

Gail spent three and a half months at the New Jersey shore this past summer, continued to play tennis and became a wage earner for the first time in thirty-two years. The husband of a high school classmate of Anne opened a dog store in the center of Wayne called "Bone Appetite" where all supplies for dogs, including homemade bones and treats, are available. Gail works there two days a week and loves every minute of the time. [John writes that in the coming months he will be semi-retired and has a new email address:

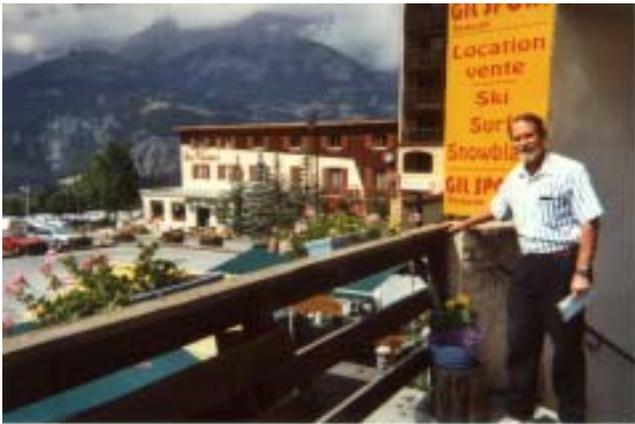

jngdill2@bellatlantic.net.]

From **BILL HANSEN**: Greetings to all from France. The pics show Ellie and me at a missions conference in Virginia three years ago, and then a shot of the French alps where we went for a vacation. We are in good shape but the years do seem to be slowing us down a bit. Seems backwards almost because when you're little and have no real goals yet, you've got all the energy in the world, and then when you get old enough to have some real goals and purposes the energy gets less and less.

The preparations for the upcoming class reunion look exciting. We

Bill Hansen, '59, above, at a conference and, below, on vacation in the Alps.

won't be able to make it for this one, but do wish everyone that does warm greetings from Paris.

Let us finally wish everyone a very Merry Christmas 2003 with the hope that the true meaning of the birth of the Savior not be lost in the hustle and busyness of this wonderful time of year.

From **COURT WOOD**: "Sandy and I had a precious guest with us from Pakistan when we received word that Saddam Hussein had been captured. Our friend whose face must be obscured, has, at great risk, brought thousands of copies of the New Testament into Pakistan. This is done at great risk, and recently, in Pakistan, a close associate of our friend was shot

through the head because of his openness with others about Jesus Christ. Here in America, we are blessed to have freedom to reason, to worship, to have differences of opinions without fear, and to seek after truth which is the foundation of freedom. This God given freedom has always been threatened by tyrants such as Hitler, Stalin, Mao, Saddam Hussein, and so many others throughout history. They will not cease their efforts to

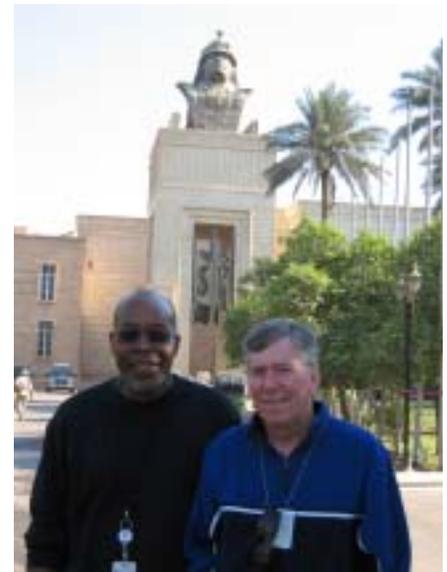

deceive and destroy, nor can we cease to uphold the cause of freedom in our world. Without freedom, truth is obscured and crushed, and millions perish. May Americans continue to bless God."

Court ('59) and Sandy Wood and their guest from Pakistan.

LEONARD VANDIVERE

writes from Baghdad that times are interesting and sometimes scary. His hotel was bombed but they "only" got an elevator. Something of an inconvenience, since he is on the ninth floor. Below is a picture taken the first week in December, with a co-worker, in front of Saddam's Palace.

Mason Alumnus Leonard Vandivere '59 visits Saddam's Palace.

JACK GARVER writes that he has moved to Ft. Lauderdale, Florida!

Class of 1961

By **Judy Fischer White**

I am excited to report that many of our classmates are planning to attend the five year reunion at the school in June! It is always so nice to see each other and always interesting to see the changes in good old G.M. High. Well, it was a

Interested in receiving an electronic copy of *Mustang Review*? Email your name & graduating class to knickerbockerv@fccps.k12.va.us

(Class of '61 continued)

significant birthday in 2003 for us all, wasn't it? (gulp!) PLEASE keep in touch and let me know what you are up to. I like to report items of interest about our classmates in my submissions to the newsletter.

Nadine retired in 2003 and is enjoying life enormously... she visited with **Bette Brown Chinnners** in S.C. last summer. **Pam Clark** is also retired, enjoying family and traveling with her husband, Don. To quote her: "just loving life." **Bob Gebeaux** continues his hobby of Lutherie (guitar building) and has built it to a small business near Fredericksburg, Virginia. He and his wife Bonnie are wintering in Key West. On a very sad note, **Beth Turner Barbee** lost her sister **Anne** ('62) just after Christmas. I'm sure you share my most sincere condolences to Beth and her family.

Where are all of my West Coast classmates? Please let me hear from you. Now that many are retiring and relocating, please put me on your "address change" list. I will be moving in March, so please keep in touch via my cell phone or e-mail, listed in the front of this publication. Let's all meet at the reunion at G.M. in June. Details are enclosed. I look forward to hearing from you.
-Judy

Class of 1963

By Bill Laing

The class news for the last six months has really had its ups and downs. The biggest news was the

loss of another classmate, **Barbara Owen Hamberg**, who died of lung cancer on October 13th at her home in Tustin, California. Our sincere sympathy to Skip, daughters Courtney and Kristie, their three grandchildren and the entire Owen family. I have taken the liberty to quote a few of the many responses that I received from our classmates; **Dave Carlo**, like many classmates, first met Barb in grade school, but one of his fondest memories is when he traveled to Salem College for a meeting with the Admissions Director and Barb went along to visit Skip. Well, as luck would have it, Barb and Skip sat in on the meeting and Barb and the Director did most of the talking and only at the end of the discussion did Dave's application get mentioned. Dave's thoughts were "The Director would have been much happier with Barb as the new student... She was a can-do person... she got it done".

"Barbara & I roomed together our first year at Radford and she was funny, smart, and always interesting—she was too young" (**Linda Marks McKendree**);

"How sad to lose another one of those special people we just took for granted and would always be in our world." (**Sharon Cosminsky Kern**, '62)

"She had a wonderful sense of humor (likewise Ellen)." (**Judy Strup Sierra**);

"Barb was a warm, wonderful friend and I will miss her." (**Bill Laing**);

"I've been thinking about her incredible energy and wit. I can almost hear her and Ellen start laughing in tandem—which of course got the whole crew falling out." (**JoAnn Silverstein**);

"That really hurts." (**Jack Roe**);

Linda Rains Ragsdale remembers Barb and other friends riding bikes to each other's houses when they were eight or nine years old. "Even though Barb's family had probably the smallest house and certainly the most kids, it was the place I wanted to be. There was always laughing there. All through high school, being with Barb always gave me a lift, a smile, a laugh, a hug. She would listen and seemed wise. I trusted her with secrets. When I hear the James Taylor song I think of Barb, "Shower the people you love with love". She is the role model of a friend that I have cherished all my life."

"Of course my thoughts have included Ellen as well when thinking about Barbara and the fact that they both succumbed to such a terrible disease. We have all the good times to remember and the positive ways they touched our lives, even without them knowing it." (**Peggy Martin Keech**);

"I always admired Barb, she was such a special person—so pretty, and she accomplished so much in her life. Our prayers are with you (Skip)." (**Betty Kilpatrick Legg**).

Donations may be made to an organization where Barb took an active role, the Assistance League

of Santa Ana; Attention: Operation School Bell, 1031 W. 1st St., Santa Ana, CA 92703; 714-972-1523.

Skip is planning an evening to remember Barb, tentatively scheduled for Thursday, June 24th, the place and time TBA. Skip and Barb's two daughters, Courtney and Kristie and three grandchildren are also planning to be present.

Well, the planning committee is busy at work planning our 40th reunion, or should I say 41st reunion? Friday night's activities at GMHS and Sunday's picnic information are available elsewhere in this issue. At press time, it appears that the location will be in the Tyson's Corner area, probably at a large hotel. The plans are to have heavy hors d'oeuvres and a cash bar rather than a formal dinner. We hope to have discount room rates with additional information for this night available in January. We will either email or regular mail the information to you at that time.

We have also found a number of "missing classmates" including **Skip Huston, Karen Loudon Wyeth, Karen Eskildsen Wilcox, Faith Bowie, David Chase and Dan Reichert**. In addition, committee members are attempting to phone all of our classmates to invite them to next year's reunion. As mentioned above, a letter will be sent in January with all the information on next year's reunion. Many classmates from "near and far" have tentatively indicated they will attend. These include **Bill Bausser, John Bonnell, Faith Bowie Brown, Bill**

Cox, Gordon Dewhurst, Diane Flynn Pilkington, Skip Hamberg, Brooke Hammerle, Skip Huston, Don Jones, Pat Laverder, Pete Lewis, Carol McBee Speigh, Judy McCrocklin, John Michael, JoAnn Silverstein, Belinda Strickler, Judy Strup Sierra, John Sullivan, Wayne Thompson, Anita Werner Southern, Ann Whiting Goldberg, Marie Willett Cook, Charlotte Wilson Koger, Pat Simmons Wilson, Gayle Yates, Richard Frase, Roy Mills, Kathy Potts Godsey, Snuffy Panciera, Linda Rains Ragsdale, Jim Edmondson, Jack Roe, Skip Strickler, Russ Lee, Michael Adams Cannon, Glad Bulwinkle, Tom Callanen, Dave Carlo, and Lem Forrest, just to name a few.

Members of the committee include: **Glad, Tom, Linda Rains Ragsdale, Ann Whiting Goldberg, and Alan Vanneman, Janice Houseman Meadows, Dave Carlo, Don Roth, Michael Adams Cannon and Bill Laing**.

This seems to be the year of retirement for a number of classmates although most have indicated that they are planning to or have already secured another job. Some plan to do volunteer work. The recent retirees include **Tom Callanen, Bill Cox, Michael Adams Cannon, Dave Carlo, Edie St. John McMillan, Gordon Dewhurst and Bob Decker**.

Rather than tell you all the information that we have acquired talking to our classmates, plan to come next June and see for yourself what we all look like some 41 years later and somewhat grayer? The dates are June 25-27, 2004. Please write it on your calendar because if you are like me, you suffer from CRS and have good old "memory problems."

Additional News: **Rusty Lunson** suffered a mild stroke in October and appears to be on the mend. Get well soon, Rusty.

Three classmates lost a parent recently. **Dick Frase** and **Skip Strickler** lost their fathers and **Peggy Price Martin** lost her Mom. Our condolences to these classmates and their families.

Don't forget to access the GM web site at www.gmhsaa.org and then click on our class. I am hoping to display a picture (below) taken of some of our classmates from the 1962/63 Variety Show in the near future. In addition, this location will have updated information on our reunion.

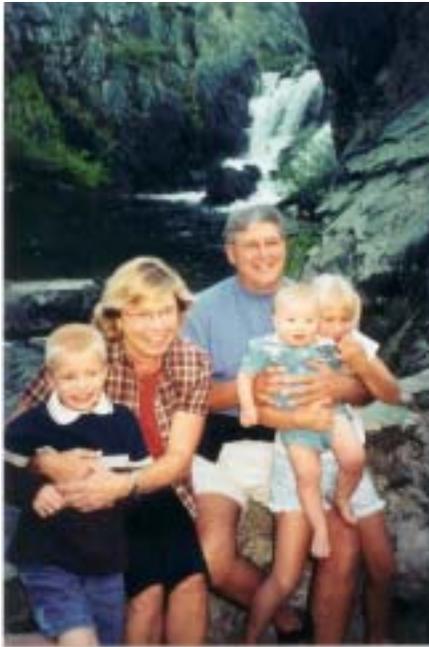

1963 GM Junior Variety Show (l-r Barb Owen, Linda Rains, Ellen Levin, Carol McBee, JoAnn Silverstein, Judy Thomas & Pat Simmons)

(Class of '63 continued)

PEOPLE IN THE NEWS

Alan Vanneman's second novel, *SHERLOCK HOLMES AND THE HAPSBURG TIARA*, is due to be published in February 2004.

Snuffy Giovanni Panciera now has a web site, www.angelfire.com/art2/giovanni/giovanni.html.

Barbara '63, Skip and children.

Barbara Owen Hamberg

Barbara Owen Hamberg passed away on October 13 after a six-year fight with Lung Cancer. She dealt with the disease and her pending death with the same courage, strength, dignity and compassion as she lived her life.

Barb would want everyone to know that she lived the life she always wanted. She spent her early years taking care of her family, supporting me in my career that required numerous moves, and nurturing two daughters. As the children progressed through school, Barb spent many hours assisting at

school and serving as PTA president. When the girls reached high school, Barb began assisting the English as a Second Language Department. This ultimately led to a part time teaching position in that department where her positive impact on her students can still be felt today. Barb retired from teaching six years ago to spend more time with her three grandchildren. She also joined a charity group that supports underprivileged children in the area. For the past three years she managed the charity's "School Bell Program" which provides clothing, shoes and workbooks to needy children.

Barb spent her entire life caring for and giving to those around her. One of her most enduring qualities was that she did not have any idea what a strong positive impact she had on everyone she met. We spent 46 years together beginning on our first date in the seventh grade at George Mason High School. I don't know if it was love in the seventh grade, but I do know that our love and commitment to one another grew stronger every year. Barb dearly loved and was extremely proud of our two daughters, Courtney Dawe and Kristin Halunen. Their success in building happy and productive lives and families gave Barb immense satisfaction. The children will tell you that it was their Mom's unconditional love, compassion and support that allowed them to choose their direction in life and to make all the right decisions. The past 10 years gave Barb the opportunity to provide that same kind of love and attention to our grandchildren, Courtney's Megan

(10), Jacob (9) and Sean (4). When they were together you could feel and see the comfort and joy they had with one another, and watch the room light up. Barb was often the mother confessor and moral compass for many of her friends. The impact she had on her friends was evident when the request for donations to her "School Bell" charity in lieu of flowers resulted in donations of over \$10,000.

Barb's life ended too soon. There was so much more she had to give. But, again, she would want you to know that she led the life she wanted. She had no regrets. She had satisfaction of having loved and having been loved. She was at peace.

Class of 1964

By Kathy Smith Ware & Warren Suleske

It's hard to believe that this year we'll celebrate our 40th year since we left GM. Don't know about you, but it's hard to believe that much time has passed. This would be a good place to mention the reunion we hope will happen the last weekend of June 2004. There will be an all-class get-together on Friday night at the school, with another affair on Saturday night. So far, it looks like we will be doing much the same thing as we did five years ago—a party at the State Theater. We will join at least three other classes from the 60's—1965, 1968 & 1970 and several other classes as well. The cost will be \$30 per person and that includes everything except cash bar. I have

e-mailed some of you to get your input on the proposed plans. Those of you who answered seemed to be in favor of this plan as long as the music is not as loud as last time. Several e-mail messages were returned to me with incorrect addresses. I would like to update my records so would appreciate new e-mail addresses for **Rick Yeary, Lory GARITY Ruml, Nancy SWARTHOUT Omps, Parry Pierce, Cricket SHERMAN Moore, and Robin Lauriault.**

I did hear from quite a few of you this past year. I heard from **Shirley BENNETT Bray and Fred Boland. Sally STRATTON Harrison** wrote to say that she is doing well and keeps in touch with **Kathy Sandidge, Janice JOHNSTON Kinsella, and Anne WILLIAMS Hall.** Had a lovely conversation some months ago with **Carol Wallace,** and received a letter from **Judy GRUBB Hartley.** Warren has been in touch with **Walter Rankin and Cliff Rowland.** Cliff, by the way, was married this past July—Congratulations! **Ken Powell** has e-mailed several times and he and his wife, Diane, took a trip to Botswana and South Africa in November. **Stu Vogt** has written to let us know what he's up to. I owe you a reply, Stu, and will get back to you as soon as I can. One of the things Stu mentioned was that his most vivid memory of his first day at GM was being in biology class with **Dave Churchill** and me. Speaking of Dave Churchill, **Paul Vick** recently spoke with him. David is living in Germantown, Maryland and

seemed to be interested in the reunion. Hope you can make it, Dave. Paul Vick and I have been exchanging memories of Falls Church with each other and with **Mary Anne EARMAN Glitz.** Paul and his wife still live in the Washington area. They have two daughters and are now grandparents! Also, I recently heard from **Carolyn TURNER Leps** in Florida. **Warren Suleske** is busy rebuilding his home at the lake. He had the old one torn down and is starting all over again. Warren retired from the Government in January and seems to be enjoying it. I am still living in Arkansas and recently started working at the local retirement home. My e-mail has changed to bkware@grnco.net. I'd really love to hear from all of you. Once reunion plans are firm, I'll be back in touch with each of you. I'm going to try to do most of the groundwork, since Warren is busy traveling back and forth to the lake.

Class of 1965

By Scott Sager

Work continues on the planning for our 40th Reunion (one year early) to coincide with the All-class Reunion weekend – 25-27 June 2004. We had a great turnout back in 1999 during the 50th Anniversary Celebration of the City of Falls Church School System, and we are looking forward to an even better response at this event. As I mentioned in the last newsletter, we will be returning to the State Theater for the Saturday evening portion of the weekend and will be joining the classes of 1964, 1968, and 1970 as well as several other classes. The cost will be \$30 per person and that includes

everything except cash bar. Also, we plan to tone down the music so we can talk and catch up on our lives. For planning purposes, I will need an idea of how many of you are planning on attending the Saturday evening (26 June) event. I assume that most of you use email so **please send me a note and let me know your plans** (including if you plan on bringing your spouse, significant other, etc.) For my records, please send me an email either way so I can enter your email in my files for future reference. For those who do not use email, a phone call or letter would be just fine.

As many of you noticed in the last *Mustang Review*, I listed **Cindy Lockhart-Mummery** in the “In Memoriam” section of the newsletter. I apologize for not including any explanation in my class article but I received word of her death just as we were getting ready to send the newsletter to the printer and I was only able to add her name to the “In Memoriam” box. She actually died back in December 2002 but I only received notice of her passing in July 2003. The cause of her death was a brain aneurysm. According to a close friend of the family, and a fellow GM Alumni, Cindy's death was very sudden and tragic and prior to her death, she was considered to be in excellent health. I am told that she went to work and complained of a bad headache, went to the hospital, and died shortly thereafter. Cindy was one of the very special people in our class and she will be missed.

I heard from several of you over the past several months. **Walt**

(Class of '65 continued)

Van Horn sent me an email to update his address and gave me a quick update on what he was doing. Walt has three grown sons (and three grandchildren) and in 1998 remarried – his first marriage ended in divorce in 1996. Walt and his wife work for a company that offers customers low discounted prices on new cars – Walt negotiates the deals and his wife handles the customer relations. They both live in North Carolina but are looking to buy a house in northern Maine on the ocean to enjoy in retirement in about five years. Walt hopes to make the reunion in June.

I received a nice note from **Bunky Owen**. Bunky is now retired after 31 years with the Fairfax County Health Department. After retiring, Bunky moved to Downey California. He indicated that the reason he relocated to the other coast was to enjoy the outdoor wilderness, camping, fishing and “alternative methods of health practitiion. . . including a changed diet and herbal therapy & exercise” and he claimed it really works. I’m not quite sure what all of that includes, but I hope Bunky can make the reunion in June so we can get some more details. On a much more serious note (and as you may have seen in the Class of ’63 section) Bunky’s older sister Barbara recently died of lung cancer. Many of us remember Barbara and, on behalf of our class, let me express our sincere condolences to the Owen and Hamberg families.

I next heard from our world-traveling Valedictorian, **Tom**

Wheelock. The last time I heard from Tom he was in Turkey and now he tells me that he is in Baghdad! Tom is managing contracts to help with the reconstruction effort in Iraq and I’m sure he is very busy. Keep your head down, Tom! Tom mentioned that he would very much like to attend the reunion in June and we look forward to seeing him and hearing some of the “war stories” that I am sure he will have.

Last, but certainly not least, I received a nice note from **Bill Jonz**. As you can see from the picture below, Bill and his wife Cindy certainly seem to be enjoying life in Washington State. Bill continues to work in the health care business. He promised that he would make it to the reunion in June and I will hold him to that. Plus, I will be looking to Bill to help round up some of the other West Coast ’65 Alumni and convince them to join us – that includes **John Swiger, Bunky Owen, Kathleen Cruise, Kathy Allan, Calvin Fouche, John Hughes, Claire Henry, David Koffman, Bruce Kain, Gary McBee, Janie Robinson, & Jackie Woolsey**. Among this list, Swiger and Cruise have already promised that they

Cindy & Bill Jonz '65

would attend – keep the pressure on all of them Bill (let me know if you would like any of their addresses)!

As for myself, I just completed the first year of my second job as an independent contractor with the CIA. Life after “retirement” is great – no management headaches, better hours, more money – doesn’t get much better than that! Received the news several months ago that both my son (age 30) and my daughter (age 24) will be getting married in calendar year 2004! Good thing I am still working. My daughter will be getting married here in Northern Virginia in September, and my son down in Atlanta in July. Wish me luck.

Stay tuned for details on the All-Class Reunion in the next *Mustang Review* that should hit your mailbox in the May timeframe.

Class of 1966

By Joyce K. Powell-Timms

I can’t believe it’s been nearly five years since the last reunion! I want to know if you would like to do something special for our class. The last reunion we just did the Friday night thing at the school. I would like for you to send me an update of what is going on in your life and will share it with the class. I will consolidate all the data and make it available at the reunion. Also, if you would like to help with the reunion, please write or call me.

I got a surprise visit at my part-time job - **Tommy Dill** was in town and stopped in at the American Legion to see me.

Thanks to **Jo Ann Briggs-Freeman** who has volunteered to help with the reunion and the class

representative duties.

If any of you know of the whereabouts of any of our missing classmates, please let me know.

Class of 1968

By **Nancy Clark Aderholdt**

The response to the next reunion has been great. So far the following folks have let me know they will be attending: **Tom Altman, JoEllen Begle Shaw; Ken Bost, Ben Bull, Linda Denoff Muscatello, Diane Drummond; Bing Earman; Tom Edmondson, Mike Gibbons, Forrest Hunter, Mark Hutchins, Sandy Jenson Polk, Bobby Kolonich, Chris Lacy, Chris Larson, Jane Rollyson, Jack Sadtler, Kathy Schrenk Kennedy; Cal Simmons, Peggy Smith, Harriett Stanley, Helen Troy, Betsy Wells, Meredy Wollenberg Morrison, and Gary Zieses.** If I have left someone out, don't worry, there's still plenty of time to let me know you would like to join in on the fun.

Looks like we will be going back to the State Theater with a few other classes. This time we're working on a smaller gathering that allows for more conversation and catching up with one another. When the arrangements are finalized, I'll be in touch with everyone I've heard from who will be attending.

Betsy Wells has made a suggestion. Remember that GM jacket she won at the last reunion? – well, she's going to bring it and we're going to put all the class of '68 names in a hat and she's going to draw a name. That person will take home the jacket until the next reunion!

I have heard from several classmates who will regrettably not be able to attend: **Beth Dupont Rieke** is disappointed she won't be able to attend. She's off to China at that time. She received several grants to develop educational curriculum materials for the school district in which she teaches. She will be visiting China and Japan the entire month of June with a group of educators. **Mary McCarthy Collins** is scheduled to attend a trade show in Phoenix that weekend. However, if the dates of the trade show change, she will join us. **Larry Mongle** regrets he can't join us – he left the corporate world and bought a small custom ornamental iron business in Gainesville, Georgia. **Elaine Heeter Flaim** is relocating to the UK for a year and will have to miss the reunion. **Bill McCormack** sends his regrets. As do **Micki Harner Robey, Pam Sager, Rhonda Stuebing Reynolds and Cathy Thompson Shields.**

Please check the "missing" list to see if you can help me find those last few classmates and please be sure to let me know if your mailing or e-mail address changes. I'll be in touch with those of you who indicate you will be attending the gathering at the State Theater and let you know exactly how much the tickets will be and when to send your money. We're trying to keep it no higher than \$30 per ticket and I hope I hear from several more of you. Keep in touch, I love hearing from each of you and will be seeing several of you in June.

Class of 1970

By **Robbie Werth**

As I reported in the last newsletter our class will participate in the multi-year reunion activities the weekend of June 25-27, 2004. I plan on having an organizational meeting at my house soon. I will send out a mailing announcing the time and date. As of this time we are planning on combining with several classes from the 60's as well as several other classes, for a repeat of the State Theater affair five years ago. For those of you that came, it was quite a treat. We will piggyback on other activities that weekend with the Alumni Association.

I have heard from several classmates recently: John Roebuck writes that he is considering a move to Delaware from North Carolina. He would like to begin recording sessions, oldies/classic rock band and eventual recording studio to produce music CD's and commercial radio production. He is currently doing odds and ends. He would love to hear from other alumni, badly misses the "Gulch" and wants to get out of Mayberry.

The **Bette McCarthy Morris** clan has procreated as follows: Son Bill (33) has two daughters, Elizabeth (5) and Rebecca (2) he also has two stepchildren from his wife's previous marriage. He is an executive with Mitretek Systems. Son John (31) has two sons John-John (9) and Josh (4) and another one due in May. John is a Fairfax County Police officer, serving on the Bike Team out of the McLean

(Class of '70 continued)

Station. Steve and Bette are still happily married. Steve retired from the paint store several years ago and now works in the same school as I do. He is working with learning disabled kids, I am still teaching retarded children. (26 YEARS!)

Jim Davis writes that he and **Billy Martin** (Class of 1971) had a chance to catch up on life, liberty and the days they each have seized over the past ten years. Billy got the chance to meet Jim's wife, Marcia, and though Billy's wife Alice could not join him on this trip to San Francisco, they are all anxious to find the next opportunity for a complete get-together of both their "tribes." With Jim's base of operations being on this wonderful west coast of ours and Billy's being in that other Sunshine State, it may well have to be the Reunion planned for the Summer of 2004 before they next get together. Jim works in the parking industry, which is running hard these days to make up for the past two years of sluggish investment while our urban environments have continued to densify. Jim works for Walker Parking Consultants.

Stephanie Line Netolicky writes that she has been married to her husband Gary for almost 12 years now since the death of her late husband shortly before we had our 20th Class Reunion in 1990. Gary and Stephanie operate a small vending company in Ankeny, Iowa. They have two children, a son, Casey, age 19, who is presently attending Colorado State University and a daughter, Lara, age 11, who

has just gone into Middle School here and is in the 6th Grade, where she is taking dance and piano. Stephanie also works part-time for a criminal defense attorney in Des Moines as well as a domestic attorney in Ankeny, Iowa. Her mother and father moved from Falls Church to Iowa to be nearby six years ago and her father has since died in June, 2000, the very same day that Suzanne and **Andy Dupont's** father also died just hours apart and in different parts of the country. Her mother still lives within a mile of them and will be 90 years old this coming April 2004. Stephanie is still in touch with **Jeannie Martin Walker, Suzanne DuPont Smith, Priscilla Tackney Lewis, Colleen Lynch Hobson, Dolly Hass Dean, Sarah Stanley Popham, Gini Bonnell, Gaye Goetz Johnson, Greg Williams and Casey Withers Humphreys, Betty McCarthy Morris and Zach Cotner** (Class of '67).

Andy Dupont's family moved back to Michigan in June of 2000 after nine years in Asia (Tokyo and Singapore). They are all healthy, and by next summer, all three of his sons will be in college. Andy is currently responsible for Dow's eCommerce activities, and is helping with the UVA Engineering Foundation. Olivia and Andy spend a lot of time working with the youth at their church, and hope to do some overseas missions work in the future. Andy reports that he will be at the reunion in June.

In order to start the location of missing alumni process I am asking

each member who reads this article to e-mail (rmw5264@aol.com) me with their current mailing address and phone number. It seems that our current list of e-mail addresses has dwindled each time I send out a correspondence. Thank you and hope to see you in June.

Class of 1975

By Phil Acosta

Greeting classmates:

I have no news to report this issue. I'm still looking for feedback from anyone about what sort of reunion we might want to do next year. Maybe just a simple cook-out somewhere. Let me know. Thanks and best wishes.

Class of 1976

By Karen Simms Tulloh & Dan Collins

We'd like to see all of you at the reunion in 2004! Whether or not our class is going to hold its own separate event is still up in the air - if you are interested in working on this project please contact Dan or Karen. We have just a couple of items to share: From **Phyllis (Tucker) Drees**: Marty and I recently moved our herd of critters to a small farm about 40 miles south of Cincinnati in Kentucky. Newly christened Ruby's Ridge Farm (after a beloved coonhound that died three years ago) is 13 acres on a beautiful ridge with 360-degree views of the Bluegrass Region of Kentucky. Ruby's Ridge is home to our two-quarter horse mares - Pudden and Callie; two dogs - Rosie and Atlas; and Gus the kitty. In the next week or two we will welcome the newest member of our clan - a miniature Sicilian donkey

that Marty has named Luigi. Barn construction was completed just in time for the first accumulating snow, most of the fences are up, hay will be delivered as soon as the roads clear, and we are ready to hunker down for our first winter in a dream come true. I don't mind getting older if it keeps getting better like this.

From **Brian Schumann**: On July 26th, Gayle and I became Grandparents. My daughter Sassie (Sallie), and her husband Brian, had Owen Davis Swain in July. Gayle and I started investing in real estate this year; we have a couple of rental properties. This past summer my son and son-in-law went into the Pool and Spa business together, BOS Pool and Spa, serving all Northern Virginia. Both are certified technicians in this field.

I heard from **Jerry Testa** this summer. He is in California, working as a Systems Engineer for Lockheed-Martin.

We'd like to extend condolences to the family of **Cindy (Phillips) Dryden**, who passed away in September. Lastly, we also extend our deepest sympathies to **Judy (Henley) Williams** and her family. Judy's parents both died this year, her mother in June and her father in September.

To our whole class: Please occasionally send me an update and put *REVIEW* in the subject line, or something like that. I can set them aside for the time period till the next *Review* submission date. Classmates like to hear what's going on

with everyone, where they are, etc. We want to celebrate your good news and share your not so good news. And (as if you have not heard it before) we urge you to join our Yahoo Group. Just email me at dknull@yahoo.com or go to <http://groups.yahoo.com/group/GMHS76>. Hope to see you in June!

Class of 1978

By Susan Richbourg Frick

Here goes. I'm back and finally have an email. Since I had to fight for space at the computer, they won. Our daughter Lauren is a "second year" student living in Charlottesville, VA and attends UVA. This leaves a space for me at whichever computer the baby of the family isn't occupying. Adam, (the baby of the family) happens to hover around 6'6" lately. He'll be moving on to an institute of higher learning this coming fall. Oh my, what will mom and dad do, you say? For starters, we'll both have our own computers to use at will or even simultaneously. Love 'em, wouldn't trade 'em for the world, but you don't know how I've anticipated that day.

I could write a book, but I'll start with a few chapters. 2003 brought sadness to our class with the passing of our dear friends. **Bobby Bullock** had contacted me to share the news that **Todd Wilson** had given up the fight to cancer around Easter weekend. He was living in Strasburg, VA with his wife Debbie and two daughters. Since the last reunion Bobby moved from Woodbridge, VA (just a few blocks from me) to Stephens City,

VA with his wife Tanis, one son and two daughters. He's worked for AAA as a field rep for as long as I can remember.

In mid August, **Tim Money** phoned from Tennessee to share memories and fond thoughts of his oldest comrade. **Davis Miers** had collapsed with congenital heart failure at home in South Carolina. He leaves behind a wife and two children. I will remember and cherish the happy moments at our last reunion with Davis. The last time I had spoken to Tim, he was in Wisconsin. A career opportunity with Cracker Barrel presented itself, and he's now heading the merchandise marketing division. He's living among the country music stars with wife and three children. His oldest son is attending college. I think he should start planning a business trip to Virginia in June, say around the 26th.

We would like to send our condolences to our classmate **Virginia Phillips. Anne Schwind McGehee** called to say Ginger had arrived from England to join her family this past September. We were sorry to learn that her sister, **Cindy Phillips Dryden** had passed away.

Our hearts go out to our dear **Anne Schwind McGehee**. She suffered the loss of her soul mate and husband three years ago January. She also lost her mother the day after mourning Bob. Our good fortune was to be able to share their happiness and meet Bob at our last reunion when they were newly-weds. We must also count our

(Class of '78 continued)

blessings. Anne is raising their daughter Caroline, now three years old this past December and loves being a mommy. She's still employed with Xerox Corporation after 20 years.

Lastly, thanks to **Norma Kinser Inqui** for her generous offer to have our reunion at her West Virginia farm. It was good to hear she has a toddler about 18 months old by now, and she is enjoying motherhood while managing to still be a veterinarian with her own practice. Her hobby is Belgian quarter horses. Also, I heard from a little blonde mouse that our man **Midkiff** is back in the area. Where are you?

To say a lot has happened since our last gathering would be an understatement. What better way to share the events in our lives and catch up with old friends and lean on each other a little. I hope everyone remembered our 1999 event with a chuckle. As I recall, that reunion brought two of our classmates together. **Doug Jackson** and **Kim Perkins** tied the knot. Way cool! As a matter of fact, some knots have been untied since last we met. That's life, new beginnings. I like to think of the glass as half full.

So on with the show. We will be joining the class of '79 at the Best Western on Route 50 (just across the street from the last event). Mark your calendars for June 26, 2004 to attend our twenty-something (is it really that many years) reunion. Matter of fact, you can plan to attend the school-wide events of

the weekend. Details of the June 26th combination class evening event will be mailed in early February (see class of '79). Look forward to hearing from all. Please share your addresses, e-mails, and phone numbers. I don't want to leave anyone out of the loop. Let's catch up.

Susan Richbourg Frick '78 –
sfrick@comcast.net, 703-590-4270

Class of 1979

By Karen (Huber) Grubbs

Yes, it's been **25 years** since we graduated and it's time to party! (before it's too late):

Who: Class of 1978 & 1979 and anyone in between or at the ends

What: Dressy-Casual (tie optional), Cash Bar, music, pictures

When: Saturday night June 26, 2004

Where: Best Western in Falls Church, 6633 Arlington Blvd.

How much: \$30-40 not sure yet. Cheaper if you pre-pay. Invitations coming soon.

Why: Because you can: catch up, visit, show off, remember, set straight, dress up, laugh, cry, dance, meet new people, network, get out of the house and be silly around people you won't see for five years. Encourage your classmates to attend Saturday night and the whole weekend.

Dave Shaw: When our youngest kid went off to college, Kathy and I turned in our city life in *Falls Church*, and purchased a 25 acre farm in *Fauquier* County. We have just finished up our second year here and feel like real farmers. We cut and bale hay, raise Texas Longhorn cattle, plant crops, and

have just about finished building a two story 20 by 30 foot barn. We both still work "regular" jobs, so I guess you could say we work two jobs. We stay really busy, but LOVE the life.

Kathy Brown: Is a payroll manager for a large school district in Southeast Michigan. Kathy enjoyed vacationing in the Canadian Rockies and Edmonton.

Meredith (Brents) Muhs: and her recently promoted Full Bird Colonel husband and family are in Germany and have plans to visit Rome.

Tina (Sprinkle) Lamont: is resigning from the Federal government after 17 years at NIH and pursuing a new career in Catering, event planning and bridal hostessing, and bar tending. Tina enjoyed visiting **Chris (Bobb) Belt** and her family last April in Las Vegas.

By the way, we need some help finding some people: **Bonnie (Berger) Gookin, Ron Carter, Mary Jo Hicks, Susan Hughes, Pam Jones, Phil Kimble, Mike Lee Michele Meiners, and Marty Willis.**

p.s. Please email me if your email address has changed in the last five years.

Class of 1980

By Betsy Dolan Quinzio & Ken Compher

Not much to report, but I did receive the following from **Richard Barnett**. "I wanted to head off any rumors before they got started. I just returned from operation Iraqi

Richard Barnett '80 in a now famous Reuters Photo from Operation Iraqi Freedom

Freedom with the 3rd Battalion of the 1st Marines and it seems that a photo of me made it to the cover of a number of papers and People Magazine. Yes, that is me and the rumors are NOT true, although I was shot I am fine. The bullet hit a pair of scissors that were in my back pocket and only left me with an uncomfortable bruise. I am attaching the photo as reference.

I also got a nice email from **Teresa Davies Jacobsen '79**. She had seen **Billy Hayes** in Winchester where he and his son started the black belt program at the Winchester Martial Arts center. She also updated me on her other family members: **Bob "Bunky" Cohen** is married with three and living in Stafford, VA. **Karen Cohen Brown** is married with three and living in Marietta, GA.

Mike Davies is living in France (Motions), **Michelle Davies Kelly** is married with a three year old (the wild thing! you reap what you sow!!!) on the Bay in Fishing Creek, MD.

Class of 1981 **By Dan Huber**

Greetings Class of '81, I hope everyone is doing fine. I've heard from several of us with an eager interest in attending the big sha-bang planned in June. Last time was really great. During that weekend's three events we drew nearly a third of our total class of 120 something. Lets do it again! Call your classmates, visit the www.geocities.com/GMHS81 web site, log on

Don't be shy. I know that most of you-all received mailings prior to the last reunion at Mammas, which was pretty cool, so I know most of you will get this. If you want to help in any way **please** get a hold of me. There are some missing classmates, information, photographs, and stories ... Any and all ideas are welcome. I hope we all can communicate more often in the future. See ya. Dan Huber.

Class of 1983 **By Tom Clinton**

Dear Classmates,
The countdown is now less than six months away until the 2nd All Class Reunion that will be held the weekend of June 25th- 27th, 2004. Our class will be celebrating 21 years since we graduated! I attended a meeting with several other class representatives in late January at the State Theatre. Instead of planning something separate that will be held outside of the City Falls Church for one or two classes and for about the same amount of money, I propose that we join the other classes from the 60's, 70's and 80's at the State Theatre. Some of the details have

been worked out and we have put a deposit down. There is plenty of room left for our class to join the others. I understand that from our decade, the classes of '82 and '84 are interested. I have volunteered to help with the arrangements. It should be lots of fun.

This multi-class group reunion party will make it a whole lot easier and much more fun if someone else is sweating over the details instead of us. If you haven't been to the State Theatre since it was renovated, it's really amazing. I've heard that everyone had a great time when many combined GM classes rented it back in 1999. If you think you want to attend, please e-mail me with your preliminary interest and contact information and then send me a check, made out to me for \$30 per person by May 1, 2004. We have to give the Theatre one half of the total bill 30 days before the event. I will then write a check for all those attending from our class to the Treasurer of this event and your name will be on the guest list at the State Theatre. It's that simple.

The cost will be \$30 per person and it would include food, music of our choosing and professional staff to serve the food and work the audio visual and lighting equipment and the cash bars. We will have the full run of the Theatre from 7:30 pm until 11:30 pm. We can also have pictures projected up on the movie screen, so if you have any pictures from the past or present, please scan them and send them to me via e-mail or a CD, and I'll put them on a class of '83 CD.

(Class of '83 continued)

They are expecting about 2200 people to participate in the various GM alumni weekend activities. It starts with the Friday night "Open House" up at George Mason and I will need a few volunteers from our class to help check people in. It's easy and you get to see everybody when they register. We will then have dinner Saturday night at the State Theatre and I'll be organizing the Sunday afternoon family picnic in Cherry Hill Park. That will be a great chance for everyone to see each other and their kids in an informal atmosphere.

If you, or someone you know, is in a band with a GM alumni member, and would like to perform, please contact me at tomclinton1@aol.com, as I'll be lining up live entertainment to play again in Cherry Hill Park. It was such a big hit last time. I'd imagine that many GM alumni would also be gathering at Ireland's Four Provinces throughout the weekend.

I do need everyone's current street address, phone number and especially their e-mail addresses sent to me. When we finalize the arrangements, I'll send everyone the details via the mail and e-mail. Please check the "missing" alumni list from the last *Mustang Review* or look up the last issue on the GMAA website to make sure you, or someone you know, is not considered "missing". Mark your calendars and I'll see you in June if not sooner!

- Tom Clinton
Class Representative

Class of 1984

By Rich Condit & Susan Schneider Eddy

Plans continue for our multi year reunion this June. We have met with other class groups that are planning multi year reunions and are considering joining forces with them and taking advantage of reunion facility arrangements already made. We anticipate having a meeting in March of the classes affected to decide which way to go. If you have questions, you can contact your class reps.

Class of 1985

By Laura Cesnik

The class of 1985 we will be participating in the multi-year reunion in June. Please access the class' website at <http://home.att.net/~gmhs2004reunion> for more information and to volunteer to help with the preparations. We also need more email addresses for our classmates in order to contact everyone for this reunion.

Class of 1987

By Robert A. Horvath

Greetings and Salutations Class of 1987! No, this is not a typo or misprint. After almost seventeen years, we are finally reaching out to ya'll: The class of 1987! Many of us appear to have been abducted into outer space or, possibly, entered into the witness protection program. Regardless of where we have all been (or not been) these past years, let's make an effort to meet at this summer's GMAA All-Class Reunion, which is scheduled for June 25-27, 2004.

1987 alumni, Hugo Mendoza & Robert Horvath at the American Grand Prix.

After the picnic, we'll be getting together at the Broad Street Grill, which is—you guessed it—on Broad Street in Falls Church, Virginia. Quite a bit of time has passed us by, and we would like to start finding out more about everyone's whereabouts, so contact either me (**Robert A. Horvath**) or **Hugo Mendoza** at gmhs1987@cox.net and let us know what you have been up to and whether you will be able to meet with us at the Broad Street Grill (or nearby pub) for a couple of drinks on Saturday, June 26, 2004.

I am married and eagerly awaiting our first child (probably born by the time the ink is dry on this newsletter) and also looking forward to taking her to her first grand prix! My wife and I recently moved to Falls Church (along with our Transylvanian hound "Kaiser Sose" who likes to bite Hugo) and are going to be rebuilding our house soon. I have joyfully misspent my years since graduating, traveling whenever I could and becoming an even bigger car nut than I was in high school. Oh, and regarding racing, see the picture above. After hail and lots of rain, Michael

Schumacher of Ferrari won the American Grand Prix in Indianapolis, Indiana.

Hugo Mendoza is married, has a six-year-old son, and lives in Springfield, Virginia. After graduating, he traded his “breakin” shoes for combat boots and chased mice through California and Saudi deserts with an M-16 rifle for a few years before safely returning home. He never attempted to “snake” across another dance floor again. These days, instead, he drinks Foster’s lager beer at major race events across the county, and fishes at Burke Lake with his son during the spring and summer.

Class of 1991

By Sasha Day Shultz

It’s been a while since my last update (I apologize!). I have heard from a number of our classmates.

Justin Black emailed me from an Internet cafe in Santiago, Chile, on his way back from an assignment for Patagonia to Tierra del Fuego and Torres del Paine N.P. He has designed a website (www.justincarderblack.com) which currently features recent photographs from the Sierra Nevada and the Bay Area. He also recently had a one-month show of his work at North Gate Gallery in Berkeley, CA, and will also have an exhibit at Mountain Light Gallery in Bishop, CA from January 1st - March 31st. **Bethany (Morde) Chavis** and her husband Chris are excited to share the news of the birth of a daughter, Kendall Nicole, 7-23-03. Kendall joins her brother, Tyler, who is three. **Susan (Stitt) Titcomb** is living in Yarmouth, Maine with her husband Scott and

her 16-month-old son, Nicolas. **Christy (Ploch) Basulto** is still teaching fifth grade in Teaneck, NJ (after three years in the Bronx teaching 6th and 7th). She has begun to focus on coaching after boxing competitively in NJ and Europe (she represented the US as a Light-Middleweight at the World Championships of Savate Kickboxing in Belgium in 2002!) **Heather (Anderson) Beacham** is currently living in Southport, NC (near Wilmington, NC) with her husband and little girl Emilie, who just turned one. Keep her brother, who is in the Air Force currently in Qatar doing missions in Iraq, in your thoughts. **Michael Lake** is finishing up his Masters in International Affairs (International Law and Conflict Resolution) at The George Washington University. He is also a free-lance consultant working on a variety of projects including: Human Security and its impact on International Donor Coordination, U.S. foreign agent registrations in the post-September 11th world. **Heather (McGavin) Hallett** and hubbie (she was married last year) are living in Atlanta. **Molly Henneberg**, who is a reporter for FoxNews, has had quite an exciting year, going to Iraq two times for 6-week reporting stints. And finally, I (that is **Sasha Day Shultz**) have had a busy year. My husband and I moved to Southern New Jersey, outside of Philadelphia, earlier this year, and we both started new jobs in the Philly area. Now I am just an hour drive from Christy!

I hope you had a wonderful holiday season and best wishes in this New Year. And as always, please be sure to email me

(sasha_shultz@hotmail.com) with any news you’d like to share (or to provide address, email updates).

Class of 1993

By Katherine Temple Craig

Hope everyone is having a wonderful winter. Below is an update on what’s new with a few of our classmates:

Both **Jesse Burgess** and **Jeff Anderson** are in the Persian Gulf working with a government contractor through the DIA. They are enjoying the work and find it to be interesting everyday. **Jon Persson** married long-time sweetheart, **Jennifer Williams** (Class of 1996), in May and joyfully welcomed their first son, Bradley Thompson, into the world on November 17th. **Lance Guckenberger** and his wife, Emily, celebrated the birth of their second daughter, Sara Marie, on September 18th.

Also in September, **Michelle Yoder** married her long-time sweetheart, **Brian Sullivan** (Class of 1992). On November 15, **Troy Austin** married his girlfriend Heather Duvall. They are currently living in Manassas, Virginia. **Chrissy Rosholt Dale** is living in Leesburg and working as an Instructional Assistant for Learning Disabilities at Lemon Road Elementary School. Her two-year old daughter was very eager for Santa to come to town.

Eugenia Leachman Grow is living in Charlotte, NC with her husband and one and a half year old daughter. They are expecting their second child in March, a baby boy. **Elizabeth Sikkar-Moncayo** is

(Class of '93 continued)

living in the Woodbridge area with her husband of 4-years, Cisco, and her two children, Collin Javier (born July 1, 2002) and Enya Dorothea (born August 5, 2003).

Happy holidays. As always, drop me an email and let me know what is new in your life. Take care everyone, Katherine Temple Craig

Class of 2000

By Jenn Brasler

Congratulations to all those who have graduated already! Good luck with job searches, graduate school, or whatever you wind up doing next. To those who will graduate this semester, we're almost there. Let me know about where you are and where you'll be after graduation.

Class of 2001

By Rebecca Davis & Veronica Ratliff

Greetings Class of 2001! I hope this newsletter finds everyone well. The past three years have flown by for sure. It is amazing to see all the different directions people in our class have taken. One thing is certain; we were not a class to stay in one place. This past semester, **Drew Johnston**, who attends William and Mary, has been studying Contemporary French Literature and Marketing at l'Université Paul Valery in Montpellier where he feels right at home. This is no surprise to those of us who were close to "Gustav." He even says he hopes to return to France after he finishes up school next year so he can find himself a French wife. **Kate Zimmerman** who also attends William and Mary is studying in France for the year

too; and **Lena Hull** and **Gabe Twos** are in Oxford and Prague respectively — all said to be having a wonderful time...and being very studious I'm sure. Gabe has been up to visit **Julia Bradshaw** who has taken some time off from school in England to study in Sweden for two years now, but will be returning to England to finish up after this summer. **Michelle Cottrell** has also been studying abroad in London for the year through Randolph Macon Women's College. **Kathryn Mason** who is majoring in Spanish and International Relations at the University of Virginia has spent the last semester in Valencia, Spain where she has been studying Spanish and some flamenco dancing on the side. **Matt McFarland** recently got into Virginia's Commerce School. **Chris Geurtsen** transferred this past year from the University of Tennessee to UNC Pembroke where he is working on an American Indian Studies Major and hoping to relive his glory days of "It's Academic" by making an appearance on *Jeopardy* any year now, as his freakish amount of arcane knowledge continues to grow. **Erica Singleton** also transferred this past semester and now attends the Fashion Institute of Technology in New York City where she is studying fashion photography, having a blast, and undoubtedly looking really city chic while out and about in New York City. **Peter Corbino** who attends Gettysburg College is working as a firefighter/EMT with the Gettysburg Fire department. He is majoring in Political Science and after school hopes to continue working with the GFD and also join the Army

Reserves. **Eleanor Grim** spent a month volunteering at a clinic in Peru this past summer, and is majoring in Neuroscience at William and Mary and possibly also minoring in Chemistry. She sings in the William and Mary Women's Chorus, and also works in a Bio Lab doing research on how the brain regulates temperature. She is planning on going to medical school after next year. **Jen Cooney** is at JMU majoring in Art Education and having a blast taking lots of art classes. Joe Stroup is also at JMU and also working on an Education major. He is thinking about possibly teaching science, undoubtedly in the great tradition of Mr. Applegate. **Derek Orban** is still at Virginia Tech where he is studying Computer Science. **Richard Snyder** attends Randolph-Macon where he is working on a History Major and a double Political Science and Ethics Minor. He is a brother of Phi Delta Theta (social Fraternity) as well as Alpha Phi Omega (service fraternity), which he joined this past fall. **Beau Fay** is at the University of Maryland where he is currently preparing for the coming track and field season for the legendary Terrapins. Our class's only division one athlete continues to make us proud. **Hunter Gray** still attends Highpoint University where he is majoring in Criminal Justice with a double minor in Sociology and Political science. His family has moved to Amsterdam, so he has had to make impromptu visits back to Falls Church. **Cieran "The Rock" Rockwell**, still loves Pomona College, currently serving as Junior Class President, the only position he has ever run for, and as he reported, holds only a close

second to representing Mason as Homecoming King and Mr. Mason. He is working on a double major in Politics and Media Studies. **Anya Byers**, also kicking it on the west coast, is still at Stanford, living in a collective called "Synergy." **Jimmy Brock** is still at Claremont McKenna College, just across the street from Cieran, and is very active in the local youth groups there.

It will certainly be exciting to see where everyone will end up in the next couple of years. It seems likely there will continue to be Mason representation all over the place and in all types of ventures. Hope everyone has a nice relaxing holiday. I am going to try and get a class email list together so that people can keep me updated on what they are doing and for general alumni news. Send your email addresses to me at rad3s@virginia.edu and I'll work on putting a list together. Thanks, Becky.

Contributions from alumni help defray printing and postage costs of the *Mustang Review*. Checks may be made payable to "CEAF" and sent to: Mustang Review Office of Community Education 803 W. Broad St., Suite 340 Falls Church, VA 22046

Calling All GM Graduates with musical talent!

Are you, or a GM alumni that you know, in a band? Would you like to play before your friends and family on Sunday, June 27, 2004 in Cherry Hill Park during the GMAA Family Picnic from Noon-5 pm? We had a lot of GM

New Falls Church Education Foundation

The new Falls Church Education Foundation (FCEF) is committed to excellence in education and a tradition of vision, dedication, and involvement in the public schools. It is intended to become a major source of supplemental financial support for the school system, so that Falls Church City Public Schools can continue to achieve the highest standards in education in the 21st century.

The FCEF Board of Directors is hard at work on its ambitious goals. A central endowment fund well in excess of \$1 million emerged as its leading priority. The Board is developing its mission statement and creating operational policies and procedures for securing, managing and administering various funds, including an endowment fund.

The Foundation will be seeking to create a strong partnership among citizens, parents, school staff, elected officials, school alumni, and businesses to provide funds for its activities. All gifts to the FCEF are tax deductible, since the Foundation is a 501(c)(3) tax exempt non-profit organization.

The FCEF plans to fund unique educational opportunities for students and teachers, such as travel to academic contests, and grants for advanced or specialized programs,

projects or training. It will also provide a central focus for college scholarships. With sufficient growth in endowment and other capabilities, there may be potential for larger projects.

The Board of Directors of the Falls Church Education Foundation consists of the following dedicated members of the community:

President Bob Young – President, The Young Group

Vice President Leslie Hutchison – Realtor, The Leslie Hutchison Team, McEneaney Associates Inc.;

Treasurer Kathleen Glover – CPA; Treasurer, Elementary PTA; **Secretary Michael Ankuma** – Investment Representative, Edward Jones Investments;

At Large Executive Board

Members: Richard McCall – Senior Vice President, Creative Associates International; & **Stacy Moot** – Executive Director, Greater Falls Church Chamber of Commerce;

Board Members: William Andrews – Partner, Nixon Peabody LLP; **Nicholas F. Benton** – Owner and Editor, *Falls Church News-Press*; **Steve Goetting** – Virzona, Inc.;

Mark Kerrigan – Group Senior Vice President, SAIC; **Harry Risetto** – Partner, DC Office of Morgan Lewis & Bockius LLP; **Tom Smolinski** – Arlington Career Center Director (Retired);

Ex Officio Members: Mary Ellen Shaw – Superintendent of Schools, & **Kieran Sharpe** – School Board

For more information on the Falls Church Education Foundation, please contact Falls Church City Public Schools' Director of Community Education, Cheryl Fontes at (703) 248-5686.

talent on display in 1999, and Tom Clinton's organizing the family picnic again for this year's All Class Reunion in June. For further details, please call Tom Clinton, Class of 1983, at 703-241-2902; write 711 Hillwood Avenue, Falls Church, VA 22042, or e-mail tomclinton1@aol.com.

Missing List

The following list of "missing" alumni is current as of 1 Feb 2004. The names listed below do **not** have an address in the database that generates the mailing labels for the *Mustang Review*. Please check the list below and if you have any information on the any of the alumni on this list, please provide it to the appropriate class representative or email it to me (scotts1147@aol.com). I have also included GM teachers/administrators who are listed as "missing" in our database. Our goal is to significantly reduce the number of "missing" prior to the All-Class Reunion this June. Thanks in advance for your help, Scott Sager '65
